

The **AMKUS**[®] Rope Rescue System

ADVANTAGE

FAST

- I Sets up in under 2 minutes.
- I Eliminates setting up time-consuming pulley systems.
- I Eliminates need for load releasing hitches.
- I Reduces number of rescuers needed topside (2 people can do the work of approximately 8-10 used in traditional rope rescue).

EASY

- I Dramatically reduces complexity of any rope rescue.
- I Achieve and maintain greater proficiency with less training.
- I Passes knots with ease.

SAFE

- I 1000 lb. working capacity with 10:1 safety margin.
- I Simple operation reduces probability of dangerous mistakes.
- I Instant stop with zero shock loading.

PRECISE

- I Rope automatically aligns with the direction of the load.
- I Precise control allows a load to be raised and lowered a fraction of an inch at a time for critical precision lifting.
- I Precision lifting and lowering speed control.
